

INSTRUCTIONS FOR PREPARING JVST MANUSCRIPTS

JVST B Special Collection

XXV AIV 2022 Conference of the Italian Association of Science and Technology

Papers presented at AIV 2022 may be submitted for publication in a Special Collection within the *Journal of Vacuum Science and Technology B (JVST B)*. The deadline for manuscript submission to *JVST B* is **September 14, 2022**. Submit your manuscripts to *JVST B* and select the AIV2022 Collection using the journals' online manuscript submission system at <http://jvstb.peerx-press.org>. In preparing your article, please follow the instructions for contributors, which may be found on the Information for Contributors link at <http://avs.scitation.org/jvb/authors/manuscript>.

No Page Charges: AVS Journals do not require page charges. AVS also offers free membership for one year to the corresponding author on accepted *JVST* papers, which includes journal access.

Authors are encouraged to use the *JVST* templates. The easiest way to prepare your manuscript is to use the available *JVST* Article Template to delete and replace text as necessary. [Click here for the *JVST* Template for MS Word](#).

Note that acceptance to present at the conference does not guarantee the acceptance of your manuscript in *JVST B*. Papers will be reviewed according to criteria set by *JVST* and must meet *JVST* standards for both technical contents and written English. To be published in *JVST B*, the manuscript must:

- present original findings, conclusions, or analyses that have not been published previously by the authors or others,
- be free of errors and ambiguities,
- support conclusions with data and analysis,
- be written clearly, and
- have high impact in its field, which must be within the scope of topics covered by the journal

Note: Authors should select “Article” as the type of paper within the conference special issue (not Letter, Note, etc.)

It is very IMPORTANT that authors indicate to which Collection the paper is submitted. Online, you will have an opportunity to tell us that your paper is a part of this Collection by choosing the Special Topic or Conference Collection “XXV AIV 2022 Conference of the Italian Association of Science and Technology (AIV2022)” from the drop-down list in the Manuscript Classification tab.

Acceptable manuscript file types are MS Word or LaTeX. For the initial submission/review process, a single PDF, MS Word or LaTeX file including the figures is sufficient. However, once a paper is accepted, a MS Word or LaTeX file of the text, any tables, and figure captions along

with the separate figure files will be required for final production. Use of color in Figures is encouraged. Your figures can appear in color online for free.

Prepare illustrations in the final published size, not oversized or undersized.

Please refer to the *JVST B* journal web page for any other details about manuscript preparation, under the For Authors tab, and Preparing Your Manuscript.

Manuscript deadline: September 14, 2022.

Note: Please observe the deadline to allow for timely processing. *JVST* will try to include papers submitted after this deadline in the Collection, but these papers may not be included. However, if accepted, papers can still be published as regular articles.

Submit Manuscript to: <http://jvstb.peerx-press.org>
